

## ARDEX CATALYST SPRAY

### Adhesive Activator

ARDEX Catalyst Spray with the use of Speedtec technology is a clear solution which when applied to nominated ARDEX Adhesives accelerates the tack time for quicker installation of floor coverings.

#### LOCATION

- Internal and external floors and walls

#### TYPICAL USES

- ARDEX Catalyst Spray is designed to increase initial tack for adhesives with ARDEX Speedtec Technology. ARDEX Catalyst Spray also acts as an innate film formation for ARDEX WPM 179 – Single Component Rubber Membrane.

#### INSTALLATION

- With the spray bottle, spray a fine mist evenly across the adhesive to one side only; as soon as this is complete install the following floor coverings to the treated adhesive.

#### PACKAGING

- 500mL spray bottle

#### CODE

16550

#### ARDEX CATALYST SPRAY QUICK FACTS
